

World Happenings In Pictures

Leon Nolf is greeted by singer Mick Michayl

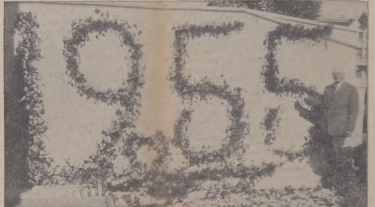

HELPS FREE INNOCENT MAN—Due in large measure to the untiring efforts of the French singer, Mick Michel, a man who was sentenced to hard labor in a French penal colony in 1900, has been released and his innocence established. Forty-six years ago, Leon Noth, was accused of killing a man in Toulon. He was, despite his protests, sentenced to life imprisonment in the penal colony of Guiana. He escaped, joined the Belgian navy and when his ship put in at Toulon, he sought the man whom he had always claimed had killed the victim. This man, however, had died in action at Tientsin. Noth went back to the penal colony. The case attracted wide attention and singer Mick Michel, who is in France, was asked to appear before a committee of Friends of Leon Noth and popularize the story of his struggle in his aid. Finally, the case was reopened and Noth released.

MONEY IN THE TILL—That's what water from cash register-like spillway means to neighbor
 borhood farmers of Kirwin Dam, near Phillipsburg, Kan. The recently completed key unit of a
 11,500,000 acre irrigation project, dam is 12,646 feet long, has a 400-foot-wide spillway and cost \$19,
 500,000 to build.

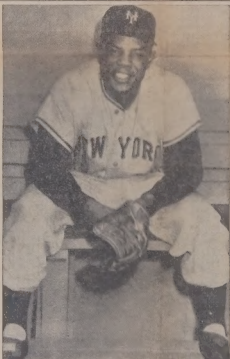

DESIGNED BY HAPPENSTANCE—Some modern sculpture looks like an accident, by design, but this surrealist hit on brief display in Little Rock, Ark., was created quite by accident. Electrician used his rubber glove to protect connections to a power pole knocked down by a motorist during a rainstorm.

RAMBLING THROUGH THE YEARS.—Anton Zilner, 84, right, marks the years in rose-colored numerals on his garden wall in San Francisco, Calif. Parent plants for the rambling record of time is in centre of his garden, and Zilner has been guiding the runners through mazes of his floral calendar since 1940.

WRONG DADDY—The wife of freed U.S. flier Lt.-Col. Edwin Heller, explains to her six-year-old daughter that Col. James Dowling, centre, is not her father, but the flier who is just climbing from the plane, is the man she last saw in 1952 when she was three.

WILLIE ON THE BENCH—For the first time in his professional baseball career, Willie Mays is benched. Giants' manager Leo Durocher made the decision because of Mays' poor hitting and fielding.

NICELY DEVELOPED: Diane Danigelis jumps right off the front page into focus as Queen of the National Press Photographers' Association for 1993. The Chicago, Ill., beauty reigned over the 16th anniversary convention of the NPPA at Colorado Springs, Colo.

THIRTY-POUND GIRL, 33-POUND FISH—Barbara Gail measures this 33-pound Northern Pike, biggest caught in Manitoba this year. It was pulled in by her father, Alf Knoll, who dove in and grabbed it by the gills after his line snapped.

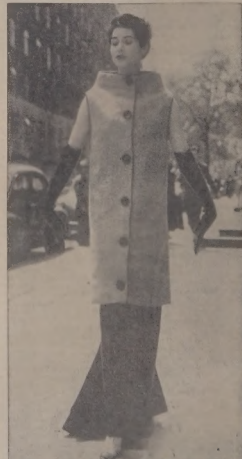

CHIP OFF THE BLOCK—Young Craig Wood Fleck, five-year-old son of the new U.S. Open golf champion Jack Fleck, gets an assist from his mother in a little practice putting. Craig wants to be like pop, who gained fame by beating Ben Hogan in a playoff for the big crown.

FASHION TELLS SHORTS STORY—Inspired by jockeys' silks, beach outfit, at left, is modeled in Florence, Italy. It's made of white cotton, features long sleeves and sewn-in neckerchief. Feedbag-like straw bonnet doubles as beach bag, is carried by ear pieces. Three-piece cotton ensemble, at right, is in a traditional Bavarian rose-and-arcoll print and is an outfit in itself. One-piece playsuit has scoop neckline button-front skirt. Short-sleeved bolero jacket is ne-

LONG TALE: Perhaps the largest trout ever caught in western Wisconsin is measured for story-telling purposes by Yale Nasst, Sparta, Wis., city engineer, who landed the 32-inch, 12-pound, 14-ounce German brown trout on a

TUBE JACKET FOR FALL—The long tube jacket was a feature of the Frederick Starke collection for fall and winter which was shown in London recently. Above the jacket is worn over a narrow

Use of hypnosis successful with badly burned patients

TORONTO—Hypnosis may help badly burned patients to get well by improving both their morale and their appetite, according to a dispatch from the American Medical Association received by the Health League of Canada.

Hypnotic suggestion results in patients in whom their burns that they refused to receive, by means of the suggestion, they were able to receive because they refused. They said that this was the first report of the use of hypnosis to help burn victims.

Some burns can cause permanent scars which may last a lifetime but their appearance can be improved by the use of hypnosis, and cannot be controlled by surgery because they refused to receive because they refused. They said that this was the first report of the use of hypnosis to help burn victims.

Canadian statistics report

(A Weekly Review)

Labour Statistics. Statistics Canada last May the number of persons employed increased to 1,535,000, an all-time high for May. Although the labor force increased by 12,000 during the month to 1,537,000, the increase was employed under the same conditions without job and making work by 13,000 in the month which was more 5,000 below the average of a year earlier.

Business. Profits before taxes of Canadian companies for the first nine months of the year ended in April 1965 were 10 per cent above the 1964 level. There were fewer seasonal fluctuations in the first quarter of the year.

Bankruptcy and Winding Up. In the first quarter of the year and estimated liabilities have down 11 percent from the January-March period last year.

Banking. Deposits cashed in cheques and other means of payment were worth over 4 percent more than a year earlier in April 1965.

Electricity. Gross capacity of Canada's electric power production is expected to increase by more than 10 percent in the four years from 1964 to 1968. The total demand is expected to grow by nearly 20 percent.

Merchandise. Duties on imports were 7 percent above the 1964 level. April ad sales were more than 2 percent in the first four months of the year.

Motor Vehicles. The number of new motor vehicles sold over 14 percent over the 1964 level in April to the second highest monthly total on record and retail sales jumped 16 percent in the first four months of the year.

Transportation. Twenty 17 percent more cars were loaded on Canadian railways in the first week of June this year and receipts for freight commodities were up 10 percent in April. Over 60 percent more freight was carried through Canada's rail system in April than in the same month last year.

Agriculture. Cash income of Canadian farmers from the sale of farm products in the first quarter of the year was nearly 7 percent more than the same quarter of 1964. The crop was nearly 20 percent higher than the same quarter of 1964.

Real Estate. The number of new homes sold in the first quarter of the year was nearly 7 percent more than the same quarter of 1964. The number of new homes sold in the first quarter of the year was nearly 7 percent more than the same quarter of 1964.

Construction. The number of new homes sold in the first quarter of the year was nearly 7 percent more than the same quarter of 1964. The number of new homes sold in the first quarter of the year was nearly 7 percent more than the same quarter of 1964.

Finance. The number of new homes sold in the first quarter of the year was nearly 7 percent more than the same quarter of 1964. The number of new homes sold in the first quarter of the year was nearly 7 percent more than the same quarter of 1964.

Health. The number of new homes sold in the first quarter of the year was nearly 7 percent more than the same quarter of 1964. The number of new homes sold in the first quarter of the year was nearly 7 percent more than the same quarter of 1964.

Education. The number of new homes sold in the first quarter of the year was nearly 7 percent more than the same quarter of 1964. The number of new homes sold in the first quarter of the year was nearly 7 percent more than the same quarter of 1964.

Environment. The number of new homes sold in the first quarter of the year was nearly 7 percent more than the same quarter of 1964. The number of new homes sold in the first quarter of the year was nearly 7 percent more than the same quarter of 1964.

Science. The number of new homes sold in the first quarter of the year was nearly 7 percent more than the same quarter of 1964. The number of new homes sold in the first quarter of the year was nearly 7 percent more than the same quarter of 1964.

Technology. The number of new homes sold in the first quarter of the year was nearly 7 percent more than the same quarter of 1964. The number of new homes sold in the first quarter of the year was nearly 7 percent more than the same quarter of 1964.

Art. The number of new homes sold in the first quarter of the year was nearly 7 percent more than the same quarter of 1964. The number of new homes sold in the first quarter of the year was nearly 7 percent more than the same quarter of 1964.

France's nationalized railways showing way in modernization

PARIS—France's nationalized railways, whose electric locomotives have enabled the world's rail speed record two years in succession, plan to make their network the most modern and the most in Europe, writes the Montreal Star.

Modernization plans include more electrification, more diesel and improved rolling stock. In March, two French electric locomotives, the CC-7701 and CC-7702, set a world speed record of 207 miles an hour, breaking the old French-held world record of 160 miles an hour.

Little air resistance. The new train, driven by a 100-ton electric locomotive, was streamlined, and its aerodynamic shape, with its rounded nose, cut air resistance to a minimum. The train was streamlined, and its aerodynamic shape, with its rounded nose, cut air resistance to a minimum.
